

E6 DOSE BY WEIGHT

INNOVATION INTERSECTS TRADITION

On demand grinder with integrated scale built entirely in aluminum, with an incorporated high precision load cell that guarantees a shot-to-shot dose consistency of $\pm 0,3$ g in each dose.

The system incorporates 4 different modes of operation and is capable of recognizing up to 10 different portafilters, which should be tared before every service.

Manual mode allows the system to be used as if it were a conventional scale, allowing to tare any container and grind directly into it.

MOTOR 610 W
BURRS Ø 64 MM

KEY ESPECIFICATIONS

Motor output	610	W
Revolutions per minute	1.290	rpm
Ø Burrs	64	mm
Time / 7g	2,3	s
Hopper capacity	1.700	g
Height x width x depth	710 x 207 x 376	mm
Net weight	11,58	Kg

KEY FEATURES

- ◆ “Parallel System” grind regulator lock
- ◆ 1, 2 or 3 On-Demand ground coffees
- ◆ Touch control screen
- ◆ Motor with fan
- ◆ Three positions switch with by-pass
- ◆ Universal holder
